

# CRI-0

By @jwerak (Appuri)

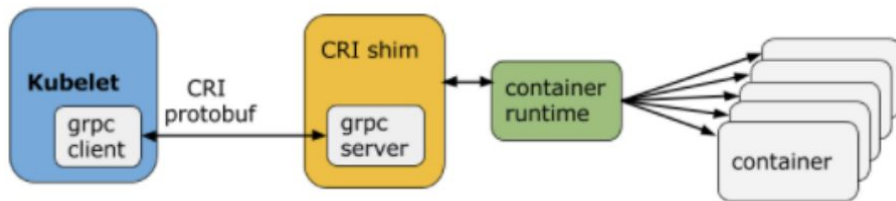

# KUBERNETES AND DOCKER

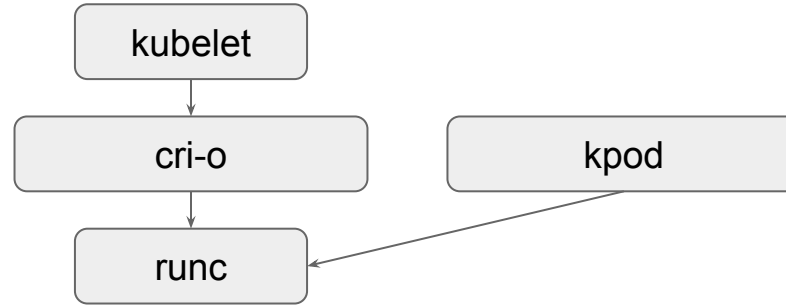

# OCI - OPEN CONTAINER INITIATIVE

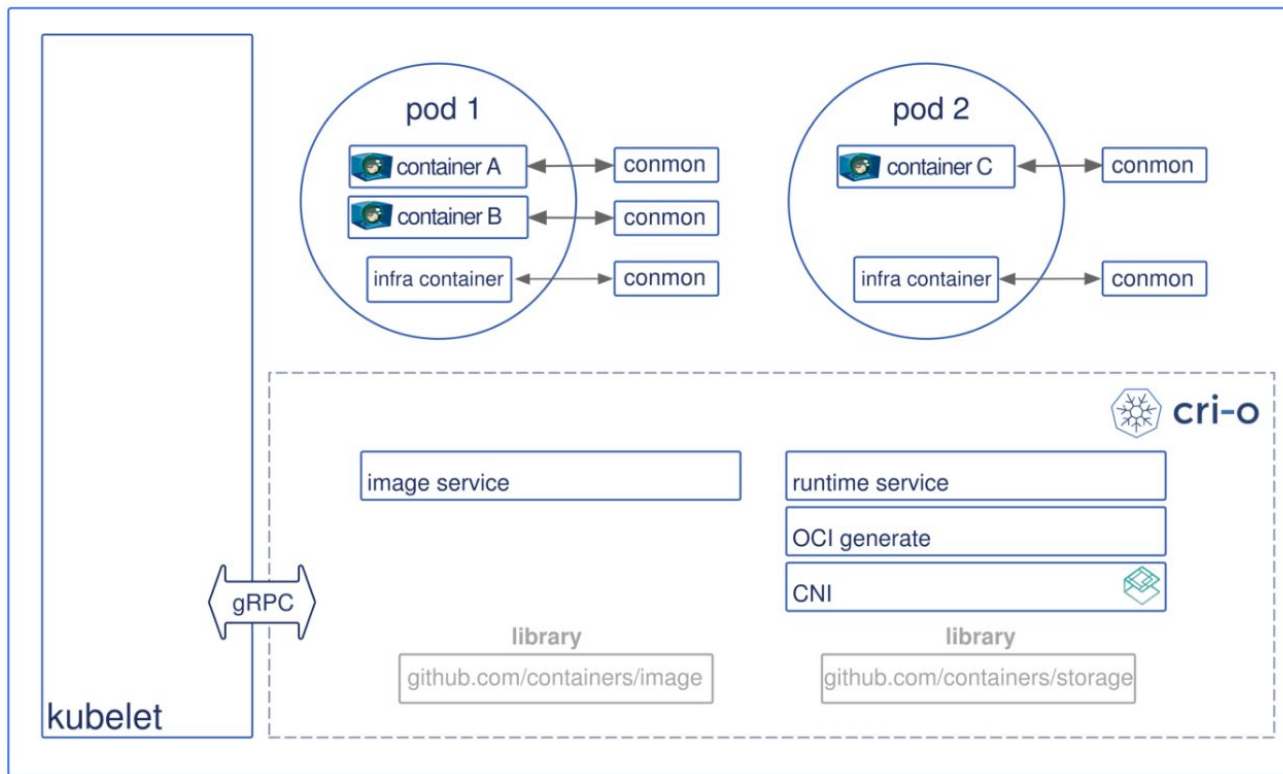

- What is OCI
  - Image and runtime specifications
- CRI - Container Runtime Interface

# KUBERNETES AND CRI-O

# CRI-O ARCHITECTURE

# KPOD

- Interacting directly with runc
- Managing images and containers
- Not for building images or pushing to registry
  - See Scopeo or Buildah for lightweight Docker replacement
- Example commands:
  - [kpod mount](#)
  - [kpod ps](#)
  - [kpod rename](#)
